

Lewis & Clark Elementary

Dear Lewis & Clark Families,

In November, many of us spend time focusing on what we are thankful for. At Lewis & Clark, we are thankful for strong parent partnerships that support student success. There are lots of ways to get involved at LC (PTA, Watch DOGS, ATP, and more...) Stop by our parent volunteer booth during conferences to find out more

Sincerely,

Mrs. Crider

Mrs. Kays (our counselor) and Mrs. Milam (our school psychologist) have gone into each classroom during the month of October to teach bullying prevention lessons. This is a visual to help define the differences between bullying, conflict, and joking around.

Is It Bullying?

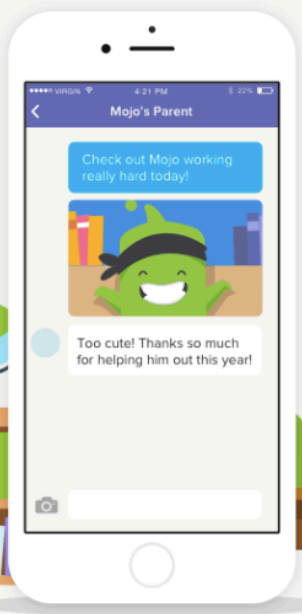

How can you tell if someone is being bullied? This chart can help you decide if it's bullying or something else.

Joking Around: <ul style="list-style-type: none">• Everyone is having fun.• No one is getting hurt.• Everyone is participating equally.	One Time Thing: <ul style="list-style-type: none">• Someone is being mean on purpose.• It's a reaction to a strong emotion or feeling.• It happens once and doesn't repeat itself.
Conflict: <ul style="list-style-type: none">• Two people with a balance of power that have a fight, argument, or disagreement.• A solution can usually be found.	Bullying: <ul style="list-style-type: none">• Repeated, unwanted aggressive behavior towards someone.• Someone is being hurt on purpose.• Can be social, verbal, physical, or cyber.

Is your family planning a holiday trip? Plan your family trips during the school holidays to prevent lost learning. Teachers are teaching every day, and students miss important content when they are not here. On time. Every day. Extended vacations, in excess of 3 school days lost, require a pre-approval filled out. Please see the office for questions.

WHEN IS SICK TOO SICK FOR SCHOOL?

Send me to school if...

I have a runny nose or just a little cough, but no other symptoms.

I haven't taken any fever reducing medicine for 24 hours, and I haven't had a fever during that time.

I haven't thrown up or had any diarrhea for 24 hours.

Keep me at home if...

I have a temperature higher than 100 degrees even after taking medicine.

I'm throwing up or have diarrhea.

My eyes are pink and crusty.

Call the doctor if...

I have a temperature higher than 100 degrees for more than two days.

I've been throwing up or have diarrhea for more than two days.

I've had the sniffles for more than a week, and they aren't getting better.

I still have asthma symptoms after using my asthma medicine (and call 911 if I'm having trouble breathing after using an inhaler).
